Executive Summary

Pentacare is a fast growing pharmaceutical & healthcare services company with a paid-up Capital of 2, 000, 000 USD, following the strategic goals of the renowned multi-service mother company **General trading company (GTC)**, which has a track record and commitment for keeping pace with time and technology in the Kuwait, GCC and MENA Region since 1959.

Since establishment in 1995, **Pentacare** have been consistently serving its values, whilst fulfilling its vision and mission, through successfully introducing private brands, and exclusively representing reputable worldwide healthcare solutions' suppliers, actively engaged in the fields of pharmaceuticals, medical devices, and medical consumables.

Pentacare core principals reside on ethical marketing, commitment to society welfare, stakeholders' profits gain, employee empowerment, aware decisions, and striving to customers delight, values that lead **Pentacare** to become a major player in Kuwait & GCC private and governmental healthcare service providers and aiming to powerfully expand the business to MENA Region and worldwide markets.

Vision

To become a market leader healthcare services and solutions market focused on developing and commercializing innovative therapies, medical devices, medical consumables & consultation services in Kuwait, GCC, MENA and Worldwide.

Key milestones commitments

- Continuously satisfy market demand with innovative healthcare solutions.
- Commitment to choose International Partners based on quality standards in operations, products, pricing, distribution, and marketing communications.
- Generating profits and ROI to our suppliers and stakeholders, by implementing professional marketing strategies.
- Building and maintaining long term customers-relationship, aiming to increase customer lifetime value, including suppliers, distributors, employee, end-users, and community in general.
-

Mission

Beyond healthcare is our business orientation

Is a commitment to establish and maintain long-term customers relationship by consistently applying on-going market and marketing research, effectively developing, and communicating creative high-quality healthcare solutions that satisfies the well-defined target market demands through efficient ethical promotion and high professionalism.

Beyond geographical boundaries is our business destination

Striving to successfully represent our suppliers in most growing markets and assuring profits to our business partners, harnessing opportunities that meet our valuable assets in terms of expertise, innovation, and responsible entrepreneurship, while returning value to our stakeholders.

Beyond Financial Revenues is our business ethics

At **Pentacare** we stick to quality standards and continuously introducing value marketing offers and doing the business right is the cornerstone in our company culture. Applying strategies and tactics of professional branding and being valuable representatives for our suppliers in the markets that we penetrate and never compromising business ethics for achieving financial revenues. The core of our existence will remain clear, which is to enhance our societies wellbeing and health profile.

Keys to Success

- Strong relationship with the medical field in Kuwait (Private and Governmental sectors).
- Professional team and sum of expertise in the field of international marketing, sales, and finance.
- Database, experiences, and database management abilities.
- Ideal working environment that attract the best talents in our sector.
- Strong financial support.
- Company goodwill, trade secrets, Private brands, and sole representation to reputable international suppliers.
- Reputation of marketing excellence and accountability.
- Excellent record in registration in the MOH.
- Integrated management and strong market access.
- Ability to generate opportunities and proactively define market dynamics.
- Well established policies, strategies, tactics, reporting and feedback system.
- Company culture and internal/external customer-orientation and commitment to profit gain.

Our Values

Integrity:

Our commitment to business ethics, fairness, honesty and transparency is equally important to us, as is to achieving business success. At the end of each day, we want to be proud not only for the goals we have achieved, but also for the way we have achieved them.

Innovation:

We believe we can make a difference only by thinking beyond the obvious. Prior to every action we take, we always consider new paths, so as to bring true value to the healthcare community, to patients and their families.

Commitment to Excellence:

We always aim high and demand the best from ourselves and our partners. Success does not make us complacent. For everything we do, we always question ourselves whether there is a better way to do it; and if there is, we follow it.

Respect for human life:

We are guided by our commitment to serve human life. To provide the medical community and patients with the most advanced and minimal side-effects therapies. To provide our employees with the recognition, job security and career prospects that each one deserves. To give back to society, so as to improve the life of those who need it the most.

DIN HM 80004999

Unit Size: H 10.5 cm X W 5 cm X D 5 cm

Weight 56 g

UPC 6 65808 11001 8

COMPOSITION :

Medicinal ingredients	Properties of each ingredient
Colocynthis 5CH	Painful and distended abdomen, spasms, cramps, gas.
Chamomilla vulgaris 7CH	Violent colic forcing patient to double over, presence of gas whose emission does not relieve the child.
Magnesia phosphorica 6CH	Spasms, violent contraction, the child cries.
Bryonia dioica 5CH	The abdominal wall is tense, sensitive to touch and calmed by pressure. Presence of intestinal gas.
Nux vomica 5CH	Gastric heaviness, cramps, intestinal gas.
Cuprum metallicum 7CH	The abdominal wall is tense, sensitive and calmed by pressure. The abdomen is hard, hot and very sensitive to touch.
Veratrum album 5CH	Profuse diarrhea preceded by cramps and violent colic.

Non medicinal ingredients:

Purified water, sorbitol, glycerin, sodium benzoate, potassium sorbate, citric acid.

Indications:

KIDZ COLIC oral solution is recommended to relieve pain associated with infant colic.

Dosage:

To be taken orally.
In acute conditions, administer 1ml every 15 to 20 minutes for 3 doses and then 2 to 3 times daily as needed. If colic always occurs at the same time, administer 1ml a few minutes before.

Caution:

If symptoms persist or are accompanied by fever, consult a healthcare practitioner.

Incompatibility with other medicine:

No known incompatibility with other medicines.

Pentacare Portfolio

Pharmaceuticals

UK-based Pharma Company specializing in registering branded niche generics, manufactured and marketed in adherence to with the UK's Healthcare products Regulatory Agency (MHRA) & European Regulatory Authority standards.

Nasila Pharma core business is to provide the highest quality generic drugs to well-defined target markets. To achieve this, they only use Contract Manufacturers based in the UK or Western Europe after carrying out thorough due-diligence process. **Nasila Pharma** products are mainly sold in the UK, Western Europe and the Gulf Cooperation Council (GCC).

Pentacare Int. is the sole agent for the strategic products of **Nasila Pharma**, representing it in the Kuwaiti governmental and private market.

Products Registered in Kuwait MOH:

Pregamax (Pregablin) 75mg – 56 Capsules, Pregamax (Pregablin) 150 mg – 56 Capsules

Tadamax (Tadalafil) 5mg, Tadamax (Tadalafil) 10mg, Tadamax (Tadalafil) 20mg.

Products under registration in Kuwait MOH:

Rosumax (Rosovastatine) 5mg, 10mg, 20mg, 40mg

Seremax Inhaler 250mg, 500mg and Symbimax Inhaler

Diclomax (Kilpainmax) 100mg diclofenac 2.3% gel

Nuromax Suspension 200mg, 400mg, 600mg (20 dose)

Products Registered in Kuwait MOH:

Pregamax (Pregablin) 75mg – 56 Capsules

Pregamax (Pregablin) 150 mg – 56 Capsules

Pregabalin is described chemically as (S)-3-(aminomethyl)-5-methylhexanoic acid. The molecular formula is $C_8H_{17}NO_2$ and the molecular weight is 159.23.

Indicated for:

Management of neuropathic pain associated with diabetic peripheral neuropathy

Management of postherpetic neuralgia

Adjunctive therapy for adult patients with partial onset seizures

Management of fibromyalgia

Management of neuropathic pain associated with spinal cord injury

Promoted to match the benchmark high demanded brand Lyrica

Products Registered in Kuwait MOH:

- Tadamax (Tadalafil) 5mg
- Tadamax (Tadalafil) 10mg
- Tadamax (Tadalafil) 20mg.

Tadalafil is a selective inhibitor of cyclic guanosine monophosphate (cGMP)-specific phosphodiesterase type 5 (PDE5). Tadalafil has the empirical formula $C_{22}H_{19}N_3O_4$ representing a molecular weight of 389.41

Tadalafil is indicated for:

- Erectile Dysfunction
- Benign Prostatic Hyperplasia

Products under registration in Kuwait MOH

Rosumax Tablets (Rosuvastatin)

- Rosumax 5mg Tablets (pack size 42)
- Rosumax 10mg Tablets (pack size 42)
- Rosumax 20mg Tablets (pack size 42)
- Rosumax 40mg Tablets (pack size 42)

Rosuvastatin calcium is a synthetic lipid-lowering agent for oral administration. The empirical formula for rosuvastatin calcium is $(C_{22}H_{27}FN_3O_6S)_2Ca$ and the molecular weight is 1001.14.

Indications

Rosuvastatin is indicated for:

- Hyperlipidemia
- Mixed Dyslipidemia

Kilpain Gel 2.32% (Pack size 100g)

Kilpain Gel 2.32% contains the highest amount of diclofenac available in a gel form. Standard gels contain 1.16% diclofenac.

Diclofenac is indicated for:

- For relief of the signs and symptoms of osteoarthritis
- For relief of the signs and symptoms of rheumatoid arthritis
- For acute or long-term use in the relief of signs and symptoms of ankylosing spondylitis

Dosage

Kilpain Gel 2.32% can be applied twice daily (morning and evening) to provide all-day relief from pain and swelling (inflammation) in the joints.

Products under registration in Kuwait MOH

Nuromax Sachets (Ibuprofen)

- Nuromax 200mg/10ml suspension in sachet (pack size 20 sachets per box)
- Nuromax 400mg/10ml suspension in sachet (pack size 20 sachets per box)
- Nuromax 600mg/10ml suspension in sachet (pack size 20 sachets per box)

Indications

Ibuprofen works by reducing hormones that cause inflammation and pain in the body and is therefore used to reduce fever and treat pain or inflammation caused by many conditions such as headache, toothache, back pain, arthritis, menstrual cramps, or minor injury. It is also widely used for childhood ailments such as cold symptoms, teething and toothache.

Seremax Inhaler

- Seremax Inhaler 250mg – 60 dose Inhaler
- Seremax Inhaler 500mg – 60 dose Inhaler

Symbimax 200mg – 60 dose Inhaler

- latest products in cosmetics products and services, including skincare, fragrances, nails, spa treatments and plastic surgery (3)
- magazines and advertisements is also expected to bolster the demand for beauty supplement market.

Private Label Nutraceuticals

Unique, yet specific natural solutions efficiently treating common major symptoms

Growing awareness of benefits of vitamins, increasing urbanization, growing influence of media, changing lifestyles, poor dietary intake due to sedentary lives and consumption of junk foods, rising incomes, growing adoption of vitamins in animal feeds, growing prevalence of immune-compromised patients and disease such as rheumatic disorders, cardiology, osteoporosis, UTI, and allergy are the drivers of the market. the growing ageing population especially the baby boomers will shift the healthcare market towards supplements.

Proceed Natura

Kuwait population is young in general view, with median age of 29.2, Male median age 30.3 and 27.2 for the females Regarding, which shape a high potential for the demand for high quality brands of supplements, to overcome deficiencies due to nutrition habits and lifestyle diseases. Life expectancy in Kuwait is 74.87 years for both sexes according to 2018 reports.

Kuwait Population Nutrition Status:

KISR (Kuwait Institute for Scientific Research) conducted the comprehensive national nutrition survey for the State of Kuwait to assess the population's nutrition status. The survey found that the prevalence of overweight or obesity among children and youth was 35% of males and 28% of females. For adults the prevalence increased to 70% of males and 75% of females. Prevalence

of hypertension was 26% with more than 60% of men and women greater than or equal to 50 years of age being hypertensive. The highest prevalence of iron deficiency anemia (15%) was among females age 20-49-year old. The results of dietary intake showed that Kuwaiti people tend to over eat with approximately half of the participants having a caloric intake exceeding the estimated energy requirements. There was very low fiber, omega 6 and omega 3 intakes in all age groups and in both sexes with over 2/3 of the population not meeting the recommended dietary requirements. Low mean intakes of most of the vitamins and minerals were noted especially for vitamin E, folate, and calcium. Prevalence of high sodium intake was more than 90%. In conclusion, inappropriate dietary intake, and high prevalence of nutrition related diseases such as obesity, diabetes and hypertension among the Kuwaiti population warrants immediate intervention.

Private Label Nutraceuticals

Unique, yet specific natural solutions efficiently treating common major symptoms

Calci-Care:

Calcium phosphate 400 mg with high bioavailability and the most used form of calcium in Europe, with the right dose with vitamin D3 and Zinc both to assure calcium disposition in bone stores and to overcome other calcium forms side effects such as gallstones, constipation, GIT Disturbance and contraindications such as blood-thinning medications.

Uri-Care:

with high concentration of Proanthocyanidin which is proven to flush out bacteria adhesion in UTI, exclusive formula with added Vitamin C to enhance urine sterility and act as connective tissue health agent along with Vitamin E, which are both major antioxidants.

Baby-Care:

with the marvels of ALKYLGLYCEROL, where more than 22,000 articles define its power for enhancing immunity and act as a major anti-inflammatory natural source, usually found in human vital organs like colostrum, bone marrow and placenta, formula contains Omega 3 Pure MUFA and fat-soluble vitamins A, E, D3 which is ideal to boost immunity, energy, fight mood swings and reduce LDL.

Maternal-Care:

With 400mcg active form of folic acid, guaranteed prevention of serious complications of Neural Tube Defects and birth defects and treating Megaloblastic anemia, added Omega 3 for maximum new born brain development and mother physical and mental health.

Medical Devices:

The country's new healthcare authority is expected to increase private sector investment improving the overall quality of healthcare services, The MOH envisions the private sector to be instrumental in the overall development of the medical sector. The private healthcare market in Kuwait is estimated to grow by 15-20% in the coming years.

Currently, a total of 12 private hospitals (totaling 1,038 hospital beds) provide private medical services in Kuwait. Several new private hospitals are expected to open in the next few years, adding 1,800 hospital beds. Although the government offers free healthcare services, patients are willing to pay a premium for private treatment in order to reduce waiting times and treatment schedules. In certain fields such as obstetrics and gynecology, local patients pay a premium for high-end services offered by private hospitals.

Pentacare comprehends crucial quality criteria in hospital and clinical medical supplies, choice of suppliers is only based on mutual commitment to Quality Service to Human's Health. Pentacare carefully inspects its suppliers according to evaluating the professional workers, good management, advanced equipment and strict quality control system, **Pentacare** have the ability to insist on offering the products of high quality with the highly competitive price as well as best service.

Market Growth:

According to IMS Health Incorporated and its Affiliates Report, there are currently 20 large-scale mega healthcare projects in the pipeline for Kuwait, worth 3.5 billion KD (12 billion USD\$) with an approximate 11,200 additional hospital beds, the government also plans to expand public healthcare provisions to meet public demand, including advanced new hospitals and specialist medical centers.

The Kuwait Health Assurance Company (KHAC) aims to refinance the healthcare costs of the expatriate population of Kuwait and the Private Health Insurance Initiative for Kuwaiti Retirees is aimed at addressing the healthcare finance needs of the national population. There continues to be a strong need to create an independent healthcare regulatory authority that will lead the policy development, licensing, quality assurance and the overseas healthcare, functions in Kuwait, the new Public-Private Partnership (PPP) law will provide the foundation for a more investor-friendly and streamlined PPP landscape to flourish in Kuwait.

Medical Device

Non-invasive way to overcome Menopause symptoms & PMS

LadyCare and MN8 Magnet - UK

Hot flushes are the most common symptom of menopause, they can impact almost every aspect of life. It's not just hot sweats that LadyCare helps reduce. You may find relief for up to 24 different symptoms of menopause such as night sweats, weight gain, and mood swings. Menopause symptoms are the result of diminishing natural hormones which then causes an imbalance of the ANS (autonomic nervous system). LadyCare has been shown to rebalance the ANS in many cases.

- Reduces hot flushes
- Reduces Weight gain
- Improve mood and energy
- Better skin tone
- Improve sleep
- MN8 Reduces PMS Symptoms with no side effects

According to Kuwait Times,

23% of women in Kuwait

diagnosed with breast cancer, in 2013, every 57 out of 100 women were diagnosed with the disease, at an average age of 54. She also noted that 12 percent of these cases were women aged below 40 while the number of deaths were every eight out of a 100 cases – Oct. 2016

It was proven that hormone replacement therapy was one of the major causes of

Cancer spread, Magnet devices prove efficacy in non-invasive manner

Hospital & Clinic Consumables Governmental & Private Market

Market Growth:

The global medical disposables market is expected to reach USD 329.9 billion by 2024, according to the study performed by Grand View Research, Inc. Key factors driving the market expansion include the growing awareness regarding benefits of infection control, which majorly include enhanced quality of life and minimized related healthcare expenditure.

propelling factors of this sector comprise constantly rising hospital visits, surgeries, and the growing need for healthcare assistance owing to the escalating geriatric population prone to developing chronic diseases and injuries. Furthermore, the emergence of this sector is attributed to the increased focus toward the use of single-use disposable products to prevent cross-contamination and infection in healthcare settings.

Kuwait Market is dominated with major players, and Pentacare is continuously developing new promotional ideas to achieve profits in this high competitive fast dynamic sector, we anticipate the market trends believing that the medical disposables segment is starkly different from the other segments in the MEDS market, which are highly technologically driven requiring high investment in equipment and technical capabilities and are research intensive.
